LEADING BY
EXPERIENCE AND INNOVATION

EnviTec Biogas

EnviTec Biogas – Europe‘s Leading Biogas Expert

www.envitec-biogas.com

A market leader through experience and innovation

As the first and only all-rounder in the industry, we stand by your side with innovative technologies and decades of experience as plant manufacturer and operator. In addition, you benefit from our convenient range of services and the marketing of electricity, heat, biomethane, green fuels and bio-LCO_2. We provide everything you need to be prepared for the major challenges of the future.

EnviTec covers the entire value chain for the production, upgrading and marketing of biogas and ranks among the top biogas producers in Germany. With over 700 employees and 18 locations worldwide, we have become Europe's leading partner for biogas and gas upgrading plants. We produce and market climate-neutral fuel (bio-LNG) and liquid carbon dioxide (bio-LCO_2) in food-grade quality. Following the acquisition of LIQVIS GmbH, we operate a total of 18 LNG refueling stations across Germany and France. In addition, we implement wind and solar projects.

Our expertise speaks for itself: we have installed around 545 MW in 19 countries and more than 700 projects. Drawing on the experience gained from operating more than 90 of our own biogas and upgrading plants, we continuously develop our technologies to deliver the most efficient plants on the market. We use our know-how to set benchmarks in our industry, and our financial security lets us act confidently while giving our customers peace of mind.

In the future, biogas is set to make an even more significant contribution to the renewables market. Developments such as bio-LNG upgrading and the production of green hydrogen from biogas offer new marketing opportunities. We are ready to face the future and we're taking you with us on this journey.

ENVITEC IN NUMBERS

2002
Foundation

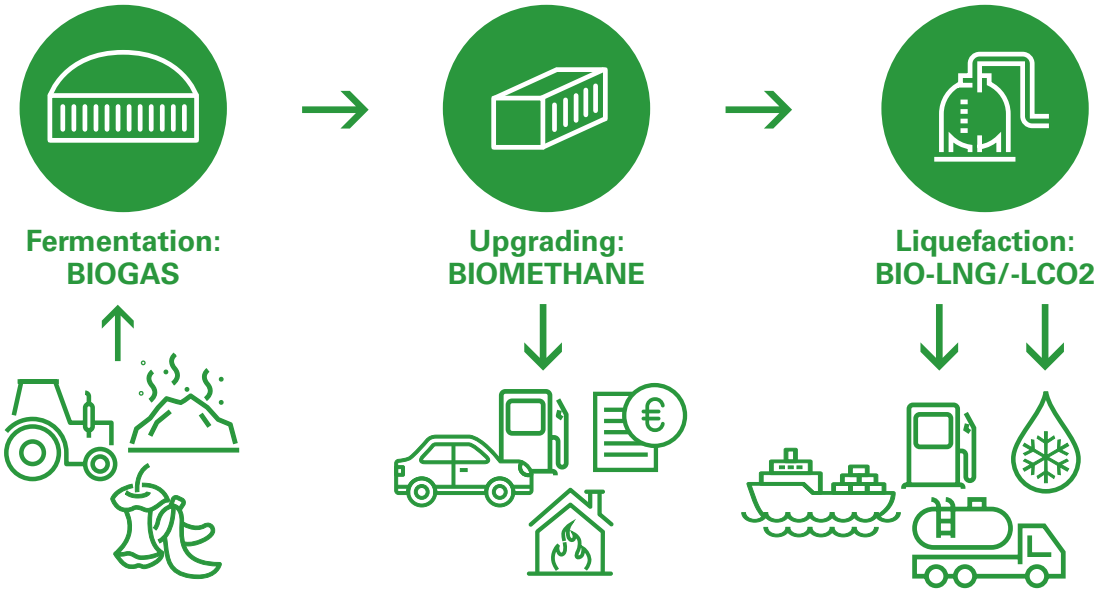

700+
Biogas projects in 19 countries

90+
Plants in own plant operation

545+
MW_{el} installed worldwide

700+
Employees worldwide

OUR ADDED VALUE FROM BIOGAS

In Güstrow, we have built Germany's largest integrated bio-LNG plant with on-site liquefaction of food-grade bio-LCO_2.

MORE ABOUT THE PLANT IN OUR FILM

20+ years of experience in building and operating biogas plants
700+ biogas plants
100+ biogas upgrading plants
10+ years of experience in EnviThan gas upgrading plants
90+ own operated plants
97% average capacity utilization of own operation plants
700+ employees
